AgriSETA Internships 2025

Job Title: ICT Internship

Job Description:

An ICT Intern supports Information and Communication Technology operations, gaining hands-on experience in IT systems, software development, network management, and cybersecurity. This role allows interns to develop technical skills while working on projects that enhance their understanding of ICT practices in a professional environment.

Qualifications:

- Studying or completed a diploma/degree in IT, Computer Science, or related fields.
- Basic knowledge of programming, networking, or IT systems.
- Strong analytical and problem-solving skills.
- Familiarity with ICT tools and software.

Responsibilities:

- Assist in maintaining and troubleshooting IT systems and networks.
- Support software development or testing projects.

- Document and resolve technical issues.
- Participate in ICT-related projects and tasks.
- Ensure data security and proper system updates.

Location:

Pretoria, South Africa.

Application Instructions:

An updated CV with a cover letter (excluding certificates) should be forwarded to: ICT_Intern@agriseta.co.za (indicate Reference No and Position title on the email Subject)

Note: Communication will be restricted to the shortlisted candidates only. Should you not hear from us in 4 weeks after the closing date of this advertisement, consider your application unsuccessful.
